EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend the specification by inserting, before the first line, the following sentence:

This application claims priority from provisional application number 60/221,051, filed July 27, 2000.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose all the limitations recited in the base claim 6. Specifically, the combination of a semiconductor device structure comprising: a first bus connecting all of the first electrodes, and a second bus connecting all of the second electrodes, each bus connected to the respective electrode by metal-filled vias, whereby the buses are positioned directly over said transistor; a plurality of contact pads distributed over each of said buses, each of the pads having a stack of stress-absorbing metal layers, the outermost layer being metallurgically attachable, and a connection to the underlying bus through openings in the insulating film, the openings positioned substantially vertically over at least one of the vias; and at least one connecting member attached to said

contact pads, whereby the electrical current path and resistance from said member to the electrodes are minimized, improving the electrical characteristics of the power transistor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
